It's Time to Celebrate! Learning new Methods.

Christmas is always an exciting time for everyone. The children love the anticipation of opening gifts. Parents enjoy buying presents that they know their children will like. I know that Ruth and I like to drive around and look at all of the lights around. Right now we are in Nevada. That means that there are lights everywhere—even on the palm trees. So interesting. We have seen dinosaurs, dragons, unicorns, elves, frogs, penguins, lots of snowmen and santas. Sadly, the houses with a manger

scene were very few. It is evident that society does not know why we celebrate at Christmas.

"And she gave birth to her firstborn son and wrapped him in swaddling cloths and laid him in a manger, because there was no place for them in the inn". Luke 2:7 esv

We have a Savior to celebrate! To thank! And to let everyone know about because, "The Father has sent his Son to be the Savior of the world." I John 4:14 esv

With that thought and the pandemic in mind, it is time for me, and Ruth, to learn some new and inventive ways to share the message of salvation.

"Christmas decorations at Green Valley District"
Henderson, NV

It has been way too long since I have been with the children in Good News Clubs®. Since I cannot be with them in club, I am learning from my son-in-law how to put the club online. I will be teaching segments to be put online each week as well as singing songs, games, and other fun ideas. This is very much a work in progress, but if you would like to see a very short version of what I have in mind, please go to eupcef.org on your phone or computer. Have your child or grandchild join you and then please give me some input on what you thought they really liked or ever what they did not. I hope that this will allow us to reach out to children when we are not allowed to have clubs like usual.
