What Should We Do Now?

That is the question God gave me this past summer. Many of the area schools said that they would be closed to outside groups, like *Child Evangelism Fellowship*®, for the whole year. What should we do now? How will we be able to reach out to the children in the EUP? What is the best way to reach out to children? Zoom? Online? Wait until in-person? There are so many questions!

God brought a great idea to the mind of Ruth and me—"You need to be ready to reach out to the children more effectively when the school doors open up again." But how? The op-

portunities then opened up! I am currently attending the *Children's Ministry Institute*® at CEF International Headquarters, just west of St. Louis, MO. I am learning how to improve lessons, promotional videos and publications, as well as how to be a better leader for the ministry.

In November, Ruth and I will be going to spend some time with our son-in-law, and daughter. Mark will be teaching me how to put together a *Good News Club*® that children will be able to access online any time they want. I am looking forward to learning this skill for not only now, but also

future ministry. More details will be shared with everyone when they are available in the next few months.

The Unreached?!

There are many schools in the EUP that do not have a *Good News Club* and a partnering church that is leading the club. So many questions! Which schools still need a *Good News Club*? What local church will be willing to partner and lead that club? Who will be willing to teach the club from that church?

If you are interested in starting a *Good News Club* at a school that does not have one, please contact me. I would love to be able to train you and see that the children in school will be able to hear the Gospel!

"I've arrived at CEF Headquarters!"
